Chrysler Reveals Special-Edition PT for 2010

The continually dead/not-dead PT Cruiser gets a *Couture Edition* with a dressed up interior and two-tone paint.

Chrysler restarted production in mid-June at the Toluca, Mexico, assembly plant that builds the PT Cruiser and the Dodge Journey crossover. It was one of seven Chrysler plants to resume production after an extended temporary shutdown as Chrysler dealt with ongoing inventory difficulties, bankruptcy, and a change in ownership.
