Mt Rainier Cruisers

July 2008

A Message from your Vice President: The Old and the New

Even in the face of high fuel prices, it has been my unique experience to observe the new spirit of community this past weekend. The unusual events that took place to spawn the old-time picnic celebration and get-together in Centralia, WA at Borst Park, by two engaging presidents from two clubs, was truly enjoyed by all who attended.

The participation by the clubs from B.C., Olympia, Kitsap Co., Oregon, Puget Sound, and Mt. Rainier, in a day that was warm, with a brilliant blue sky, hallmarked, not by competitive interests, but by true fellowship with one another and progressive dialogue, will help form a great foundation for more equally satisfying annual events to follow.

So thanks, Rick and Gary, this event showcased what this vehicle, and the people who own them, represent. I was very proud to be associated with all my new and old neighbors.

CRUISE ON

Roger Klein

MRC VP

- Dianna (DJ) Smith 7/3
- Jan Rich 7/14
- Jerry Ramsey 7/24
- Chris Anderson 7/27

Anniversaries

- Aggie & Carol Aguilar 7/31

Member of the Month – Theresa

I was born in Quincy Massachusetts. My father was in the Air Force we traveled every 2 1/2 years up till I was 10 years old and then my father was sent to Washington State where he retired. We moved to Spanaway in 1975 and have been here ever since. I have two children sons, Michael and Jonathan, and a wonderful husband, Jeff. I also gained a lovely step daughter, Lyssa, when Jeff and I met each other. I also have a future daughter-in-law, Paige, who is just like a daughter to me, we love her. We have four four legged children (boxer dogs) who keep us very busy.

Jeff and I met at Washington Floral Service where we were delivery drivers. I

got a crazy idea one day to change my career and work for the airlines, so I enrolled in the International Air Academy in Vancouver WA. After eight weeks of school I graduated and was hired by Frontier Airlines, which was another crazy thing because I had to start out in reservations, which is located in Denver Colorado, so we packed up everything and moved to Denver and worked there for 18 months and transferred back to Washington working at SeaTac Airport as a ticket agent for 10 years. After 10 years working there it became to much physical labor and I had to make another crazy move and change careers and I was hired by Virginia Mason Hospital as a Patient Account Specialist where I am now and very happy there.

After Jeff bought his PT Cruiser, we looked on the internet to find a PT Cruiser club, because we thought hey, they have Mustang car clubs and Corvette car clubs, let's check it out. We found the Mt Rainier Cruisers club and ventured out to one of the meetings. We truly enjoyed the people and decided we would join.

I had a Ford Mustang that I really loved didn't want to part with it and it started showing signs of having expensive issues. Jeff said before this car gets expensive go test drive a PT Cruiser. It took me a few days to decide but I went to Lithia Dodge and test drove one and that is the end of that story I fell in love with it.

I love my car and all the wonderful friends I have made. The club is like a second family to me and I look forward to many more years to share with all my wonderful friends I have made.

And some of you know me as SPEED RACER!!!!

Items for Sale

Four 16" chrome factory wheels \$400.00

(6 spoke) from a 2004 PT (no tires).
